

MEMBER TRANSITION · AUDIT WORKSHEET

Five Clauses Protect Members During Transitions.

Most Plan Sponsors Assume They Execute.

Three audit passes. One transition event log. One gap document.

This handout decodes the five member transition disruption clauses: continuity of care, transition supply, formulary-change member notification, prior authorization grandfathering, and benefit-modification ratification. The clauses are written; the execution is not automatic. The audit is what closes the gap.

01 Identify every transition event in the past 12 months

Open benefits committee minutes and PBM correspondence. List every member-affecting transition: formulary changes, PA criteria changes, network changes, specialty-pharmacy routing changes, mail-order configuration changes.

For each, document date, member population affected, contractual transition window.

02 Compare contract language to actual member experience

Open your contract's transition clauses. Note the protections: continuity-of-care days, transition supply mandate, notification cadence, PA grandfathering window.

For each transition event, audit whether the contractual protections were actually delivered.

03 Catalog the gap with member counts and consequences

For each transition where the audit surfaces a gap, document: how many members affected, how the disruption manifested, cost or clinical consequence.

The gap document is the renewal-leverage item.

04 The Pattern PBS Sees Most Often

Across hundreds of PBM contract reviews and audits annually at PBS: the transition clauses are in most contracts but rarely audited. Members report disruption; the plan sponsor assumes the PBM is following the contract; the PBM is following an operational playbook that may or may not match.

05 Paste-Ready: Send to Your Broker or PBM

TRANSITION EVENT LOG

Event Date	Type	Members Affected	Contract Window	Delivered?
_____	_____	_____	_____	Y / N / Partial
_____	_____	_____	_____	Y / N / Partial
_____	_____	_____	_____	Y / N / Partial

For each "N" or "Partial":

- Specific protection missed: _____
- Contract section: § _____
- Member impact (count): _____
- Cost / clinical consequence: _____

Gap notification sent to PBM (date / clause cited / response):

06 This Quarter's Action Plan

STEP 1 • THIS WEEK

Build the 12-month transition event log

Use the template above. List every transition with member counts.

STEP 2 • WEEK 2

Compare contractual protections to actual experience

Did continuity-of-care, transition supply, notification cadence, and PA grandfathering execute?

STEP 3 • WEEK 3

Catalog gaps with consequence data

Member counts and clinical or cost consequences make the gap concrete.

STEP 4 • AT RENEWAL

Bring the gap document to the negotiation table

Documented gaps shift contract redlines.
