

## Ginny Crisp, PharmD

Chief Executive Officer · Prescription Benefit Solutions

*Independent, pharmacist-led pharmacy benefit consulting for self-funded employers*

Ginny Crisp specializes in helping self-funded employers take control of pharmacy spend — the fastest-growing and least transparent line in most health plans. As an **independent** consultant with no ties to any PBM, carrier, or rebate stream, she works solely for the plan: translating opaque PBM contracts into clear financial terms, negotiating directly with PBMs to recover savings, and applying pharmacist-level clinical judgment to keep members on the right therapies while lowering net cost. She brings more than 15 years of experience turning confusing pharmacy contracts into measurable results.

### HOW SHE HELPS PLANS MANAGE COST

#### PBM Contract Review

Line-by-line analysis of pricing definitions, guarantees, rebate methodology, and termination terms — then direct negotiation and redlines to move terms in the plan's favor.

#### RFP & Vendor Selection

End-to-end PBM RFP management and apples-to-apples vendor comparison, so the plan chooses on true net cost, not headline discounts.

#### Clinical Plan Management

PharmD-led formulary strategy, specialty and GLP-1 oversight, and utilization management that protects member access while controlling trend.

### RECENT RELEVANT ENGAGEMENTS
